## Section B - Supplies or Services and Prices

SUPPLIES OR SERVICES AND PRICEINTRODUCTION

## Section B - Supplies or Services and Prices

A Firm Fixed Price (FFP) Indefinite Delivery / Indefinite Quantity (ID/IQ) is the contract type effective for the performance period of this contract. Performance shall be made only as authorized by delivery orders issued in accordance with the ordering clause of this contract.

Each delivery order will contain, among other information, the date of the order, the order number, the exact quantity of units to be delivered, delivery or performance, place of delivery, any special shipping instructions, pricing, and accounting and appropriation data. The unit price of each delivery order will be determined by the ordering period and the number of units ordered in accordance with the Schedule of Supplies and/or Services of this contract. Individual orders will be issued using the single price for the increment that corresponds to the total quantity being purchased on that order for the year in which the order is placed. Quantities are not cumulative from order to order. The unit price of each order is determined by the total quantity for that order only, regardless of the previous number of orders issued or the total of previous quantities ordered. Delivery of units under a specific delivery order shall not be combined with delivery of units under another delivery order. Delivery orders will incorporate all clauses of the contract. The Contractor is responsible for delivery of each item (e.g., unit) to the final destination.

**CONTRACT MINIMUM AND MAXIMUM QUANTITY:**

In accordance with FAR Clause 52.216-22 Indefinite Quantity (Oct 1995), the Government shall purchase a “minimum” quantity of two (2) Category I and two (2) Category II Vehicles for this contract within 30 days after contract award. The “maximum” quantity of Mine Resistant Ambush Protected (MRAP) vehicles for this contract shall not exceed 1,500–Category I, and 2,600–Category II. There is no minimum or maximum quantity requirement on all other supplies or services ordered hereunder.

**PERIOD OF PERFORMANCE:**

The period of performance for this contract shall be 12 months beginning on the effective date of the contract with 4 (four) 12-month option periods (maximum ordering period not to exceed 60 months).

**\*\*NOTE:** Step Ladder Quantities for ID/IQ CLINs and subsequent Option CLINs: Offeror shall provide step-ladder (e.g., incremental) unit pricing for the CLINs specified in the Section B CLIN description.

Automatic identification device means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

Concatenated unique item identifier means--

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

Data qualifier means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

DoD recognized unique identification equivalent means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <http://www.acq.osd.mil/dpap/UID/equivalents.html>.

DoD unique item identification means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

Enterprise means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

Enterprise identifier means a code that is uniquely assigned to an enterprise by an issuing agency.

Government's unit acquisition cost means--

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

Issuing agency means an organization responsible for assigning a non-repeatable identifier to an enterprise (i.e., Dun & Bradstreet's Data Universal Numbering System (DUNS) Number, Uniform Code Council (UCC)/EAN International (EAN) Company Prefix, or Defense Logistics Information System (DLIS) Commercial and Government Entity (CAGE) Code).

Issuing agency code means a code that designates the registration (or controlling) authority for the enterprise identifier.

Item means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

Lot or batch number means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

Machine-readable means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

Original part number means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

Parent item means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

Serial number within the enterprise identifier means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

Serial number within the part, lot, or batch number means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

Serialization within the enterprise identifier means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

Serialization within the part, lot, or batch number means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

Unique item identifier means a set of data elements marked on items that is globally unique and unambiguous.

Unique item identifier type means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <http://www.acq.osd.mil/dpap/UID/uid--types.html>.

## Section H - Special Contract Requirements

### SPECIAL CONTRACT REQUIREMENTS

## Section H - Special Contract Requirements

### **H1 NOTIONAL PRODUCTION PROFILE/DELIVERY SCHEDULE**

The anticipated initial vehicle production profile/ delivery schedule during the first 12 months of the contract (subject to change based upon programmatic factors) for the MRAP program is provided in Attachment 6 .

### **H2 Rapid Delivery Incentives**

For Initial ID/IQ Test Vehicles:

The Government will provide the contractor an incentive of \$100,000.00 for the initial two ID/IQ Testing Vehicles per vehicle Category if the contractor delivers the CLIN within 30 days of Contract Award. This incentive applies to the first two vehicles of any awarded ID/IQ CLIN per vehicle category.

### **H3 Basis for Subsequent Delivery Order Award(s)**

As a result of MRAP source selection (as described in Section M), the Government may award one or multiple ID/IQ contracts to successful offerors. These initial ID/IQ contracts shall include an initial funded base quantity of vehicles (2 of each type) that shall be used for Performance Verification Testing (PVT) as described in the Performance Specification and Section C. Upon completion of this testing, the Government may award follow-on delivery orders (which may include awards under more than one ID/IQ contract), above the initial contract minimum order. Delivery Orders will be issued in accordance with FAR 16.505. If the Government elects to award these follow-on delivery orders, the following criteria shall be used as the basis for deciding how to place these orders (in descending order of priority):

The Contractor or Contractors vehicle systems that demonstrate the best overall performance in PVT testing (with survivability being the highest priority)

The Contractor or Contractors that demonstrate the greatest capability to produce and deliver vehicles with the shortest ramp up time and greatest maximum production capacity, in order to meet the urgent delivery requirements for these vehicles.

Funding availability/affordability will also be a consideration in making the business decision as to how to proceed with an order or combination of follow-on orders. Due to the urgency of the requirement, the Government need not wait for all test vehicles to be delivered and tested before deciding to execute additional delivery orders. Early delivery of initial ID/IQ test vehicles is encouraged. The Government reserves the right not to test an offeror's vehicle if adequate US Government test data is available and validated by Marine Corps Systems Command (MCSC).

### **H4 CONTRACTOR NOTICE REGARDING LATE DELIVERY**

In the event that the contractor, for any reason, anticipates or encounters difficulty in complying with the contract delivery schedule or date, or in meeting any of the other requirements of the contract, they shall immediately notify the Administrative and Procuring Contracting Officers (ACO and PCO) in writing, providing all of the pertinent details. This data shall be informational only in character and its receipt by the Government shall not be construed as a waiver by the Government of (i) any delivery schedule or date, (ii) compliance with any other contract requirement

by the contractor, or (iii) any other rights or remedies belonging to the Government under law or otherwise under this contract.

#### **H5 INCORPORATION OF REPRESENTATIONS AND CERTIFICATIONS BY REFERENCE**

In the event that the contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority at the contractor's expense, and no adjustment shall be made in the contract price or other contract terms and conditions as consideration for the aforementioned unauthorized change. 52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from the date of contract through 60 months.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

#### 52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than 1, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor:

(1) Any order for a single item in excess of 1000;

(2) Any order for a combination of items in excess of 2600; or

(3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 15 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons.
