WPPL	<input type="checkbox"/>	VMware	<input type="checkbox"/>
OTHER SYSTEM(S)		OTHER APPLICATION(S)	

WHAT WOULD YOU LIKE THE DEPLOYED SUPPORT TEAM TO ACCOMPLISH DURING THEIR VISIT? {TYPE IN BOX BELOW}

EXAMPLE: We would like systems support for our COC and DDS-M. We require over-the-shoulder training on Windows 2003 Server and Exchange 2003 Server using the equipment that comes with our COC and DDS-M. We would also like over-the-shoulder training on basic router and switch configurations using COC, DDS-M, and stand-alone equipment.

WHAT IS YOUR DESIRED END-STATE WHEN OUR VISIT IS COMPLETE? {TYPE IN BOX BELOW}

EXAMPLE: Marines are basically trained in routing, switching, Microsoft Server 2003, and Exchange Server 2003. Furthermore, they are familiar with how to apply this training on the equipment from the COC and DDS-M which includes integration between the two systems.

WHAT FUNDING CAN YOU PROVIDE FOR THIS SUPPORT EVENT? {TYPE IN BOX BELOW}

EXPLANATION: MCTSSA TAD budget is for planned deployed support events. Supported units for unplanned deployed support events are now asked to fund Marines and DoD Civilian employees' travel costs. Supported unit will not be required to pay for Contractors' travel costs. If supported unit does not have funds available then the decision will be made by the MCTSSA Commanding Officer. MCTSSA unit funds will be used to support the event.
