**DESCRIPTION AND FUNCTION**

The portable air compressor is a trailer mounted unit which will furnish compressed air at the rate of 260 CFM at a pressure of 100 psi. It is designed to run at its rated capacity under adverse conditions of heat, cold, rain and dust, and will operate pneumatic tools as well as provide compressed air for bridging and bulk fuel operations. The compressor is used by Combat Engineers Battalion, Engineer Support Battalion, Artillery Regiment, Ground Combat Support and Marine Aircraft Wing units. Pneumatic tools are components (SL-3 items) of the compressor unit.
