

February 2012 Communiqué

Published 2/17/2012

The Holiday Season has come and gone and we enter a new calendar year and close out the first quarter of the fiscal year. IMSD continues to examine the way we do business continually looking for efficiencies. We are continually in the process of examining our metrics ensuring we are measuring the right stuff. We shared a copy of an award nomination with many recently. The nomination was for the DoD Supply Chain Operational Excellence Award. Once the nomination has cleared the final internal Marine Corps review and is submitted we will post a copy of it in the IMSD SharePoint. Keep pressing Marines our mission is extremely critical.
