

IMSD News

Published 3/9/2009

In the previous "News You Can Use" communiqué it was stated that FY08 was a year of evolution for IMSD. FY09 continues that evolution with the update of the Divisions' implementing and sustaining actions identified in the PM Ammunition Strategic Plan. You are encouraged to review those and follow their progress by reviewing the Divisions' Performance Update Board (PUB) minutes. An IMSD Summit was held in Jan 2009 with our partners (government and industry). Its purpose was to communicate our mission(s), structure/personnel, actions (implementing/sustaining) and performance levels. We continue to strive to meet your needs.
