

## **IMSD News**

Published 7/21/2010

Readers regret the void in our communiqués rest assured we are committed to sharing information with you as it is ALL of us that will move the enterprise forward. As part of that commitment we have hired an Operations Manager for the Division who's duties encompass all facets of our execution and communication. In the previous "News You Can Use" communiqué I spoke of the Divisions' Performance Update Board (PUB) and encouraged you to read its minutes. Sorry for not having these accessible rest assured they will be in the future. IMSD continues to drive on with evolution and performance as our drivers. I'll let the teams provide you updates on their evolutionary and performance efforts. Look forward to better communicating with you and welcome your comments and appreciate your continued support.
