

IMSD News

Published 10/22/2010

Readers, as noted in the previous communiqué we are committed to enhancing our communication. One of the first steps was the restating of the IMSD and Teams' missions. We are in the process of updating our actions as they relate to the PM Ammo FY11 Strategic Plan update. We will also begin populating the IMSD Resource/Information Center with our SitReps as well as our Performance Update Board (PUB) minutes. Additionally, we intend to routinely submit articles for inclusion in the Ammunition Quarterly (AQ). In closing, the Marine Corps' Birthday is fast approaching and I'd like to wish all former, present, and future Marines a "Happy Birthday" and "Semper Fidelis".
