

COLD WEATHER KIT

TAMCN: B10107B		I.D: 11081A		NSN: 4610-01-526-1561	
					
<u>Functional Description</u>					
<p>The Cold Weather Kit is employed during cold weather operations (temperatures below 32°F to -25°F) to prevent water in the Tactical Water Purification System (TWPS) from freezing. The Cold Weather Kit provides an extended capability for the TWPS. One Cold Weather Kit is provided for every two TWPS. The Cold Weather Kit is stored in its own metal shipping container.</p>
