

3000 GALLON COLLAPSIBLE FUEL TANK																																																																	
	TAMCN: B0573																																																																
	ID: 10803C																																																																
	NSN: 5430-01-542-7938																																																																
Functional Description																																																																	
<p>The 3000 Gallon Collapsible Fuel Tank is constructed of impregnated fabric and equipped with two 2-inch hose connections and a single vapor vent. The 3000 Gallon Collapsible Tank assembly includes an aluminum storage chest, and associated SL-3 components. This assembly is a component of the Helicopter Expedient Refueling System (HERS) (TAMCN B1135) and is associated with the Expedient Refueling System (ERS) (TAMCN B1570). Refer to SL3-10803B for full list of components / inventory. Forklift support is required.</p>
