

FUEL FILTER SEPARATOR, 600 GPM

TAMCN: B1585

ID: 11224A

NSN: 4330-01-533-8221

Functional Description

The 600GPM Fuel Filter Separator is a two stage filtration system capable of removing solid contaminants as well as free entrained water from fuel. The 600 GPM fuel filter separator meets requirements of API 1581 5th Edition Category M100 Type S. It is an SL-3 component of the Tactical Airfield Fuel Dispensing System (TAFDS, B0675) and the Amphibious Assault Fuel System (AAFS, B0685). Forklift support is required.
