

WATER SIX CONTAINER PUMP MODULE (SIXCON)																													
	TAMCN: B1581																												
	ID: 09444A																												
	NSN: 4320-01-318-1853																												
Functional Description																													
<p>The SIXCON water Pump Module is a component of the SIXCON system, a module system consisting of five tank modules and one pump module. The six modules attach together to form an International Organization for Standards/American National Standards Institute (ISO/ANSI) configured 8 x 8 x 20-foot module. The water pump module is designed to dispense potable water from any one of several types of water supply tanks (mobile or stationary) for support of combat equipment and personnel in the field. Forklift support is required.</p>
