

WATER SIX CONTAINER STORAGE TANK MODULE (SIXCON)

TAMCN: B2086

ID: 08990A

NSN: 5430-01-203-9971

Functional Description

The SIXCON Water Storage Module is a component of the SIXCON system, a module system consisting of five tank modules and one pump module. The six modules attached together to form an ISO/ANSI configured 8 x 8 x 20 foot module. The SIXCON Water Storage Module is a stainless steel tank encased within the module frame and has a capacity of 900-gallons. The water tank is covered with at least 1 inch of foam insulation to keep stored water from freezing or heating up. It has the ancillary components necessary for inter-connecting to other SIXCON Water Storage Modules and the (TAMCN B1581) SIXCON Water Pump Module. The SIXCON Water Modules can be used as a mobile water dispensing asset or as a stationary dispensing capability. Forklift support is required.
