

3000 GALLON COLLAPSIBLE FABRIC WATER TANK																																																													
	TAMCN: B2130																																																												
	ID: 01034H																																																												
	NSN: 5430-01-540-5357																																																												
Functional Description																																																													
<p>The purpose of 3,000 Gallon Collapsible Fabric Water Tank is for storage of potable and non-potable water in support of Water Supply Support Equipment and tactical water purification systems. It is constructed of impregnated fabric and designed for quick set-up/tear-down. The tank is equipped with a zipper top to prevent contamination and two 2-inch valves. Refer to SL-3-01034H for a complete inventory and description. Man portable.</p>
