***DESCRIPTION AND FUNCTION***

The Rough Terrain Forklift is a lightweight, diesel powered, air transportable forklift used for lifting palletized loads up to 5,070 pounds. Equipped with a telescopic boom, 4-wheel, crab, and circle steering modes. It will be employed by the combat engineer battalion, artillery units, the engineer support battalion, landing support battalion company, other ground support combat service support units, and various Marine aircraft wing units. It is required to clear landing zones of supplies and equipment, to load and unload combat vehicles, aircraft, and ISO containers.
