

# YOUR EQUIPMENT IS THE FIRST LINE OF DEFENSE

## MARINE CORPS SYSTEMS COMMAND PROGRAM MANAGER INFANTRY COMBAT EQUIPMENT

### COMBAT DIVER VEST

**Overview:** The Combat Diver Vest (CDV) was a life-cycle replacement for the Secumar Life Preserver and Sea-Tec Buoyancy Compensator systems. It is a multi-mission/multi-apparatus diving vest that serves as a life preserver and buoyancy compensator. It provides head-out, face-up flotation for an unconscious diver, and can be used with MK-25 UBA and SCUBA systems. It may be configured for front- or back-mounted systems. The CDV has integrated weight pouches that eliminate the need for weight belts. It also has Modular Lightweight Load-Carrying Equipment (MOLLE) webbing used for attaching other items to the vest.

**Features:** The CDV air cylinders are charged utilizing the Portable Compressor Diesel Driven (PCDD). The Charging Adaptor Interface Kit (CAIK) may be utilized to charge multiple cylinders at one time.

**Components:** Used by MK 25 MOD 2 UBA; SCUBA. The major components of the CDV are the adjustable harness, adjustable waist belt, outer container and air bladder, authorized weight pouches and sheaths, integrated non-detachable weight pockets, apparatus attachment straps, over pressure relief/rapid exhaust valve power inflator, high-pressure inflation system, and low-pressure inflation system.

**Concept of Distribution:** Organic to active and reserve Marine reconnaissance battalions, force reconnaissance companies, and Marine Raider regiments and battalions

**Fielding Status:** Fielding complete

**Requirements Document(s):** Operational Requirements Document (ORD) for Underwater Reconnaissance Capability, date U/K

**Training:** Training is managed by the using units S-3, Master Diver or Dive Chief. Training materials are available via the Unit Training Assistance Portal (UTAP) website.
