

MARINE CORPS SYSTEMS COMMAND

Equipping Our Marines

The Future of Electromagnetic Spectrum Hardware

PM TCE

Mr. John Mithun

Controlled by: USMC

Controlled by: MCSC, PM TCE

CUI Category: APPROVED FOR PUBLIC RELEASE.
DISTRIBUTION IS UNLIMITED.

Limited Dissemination Control: FEDCON

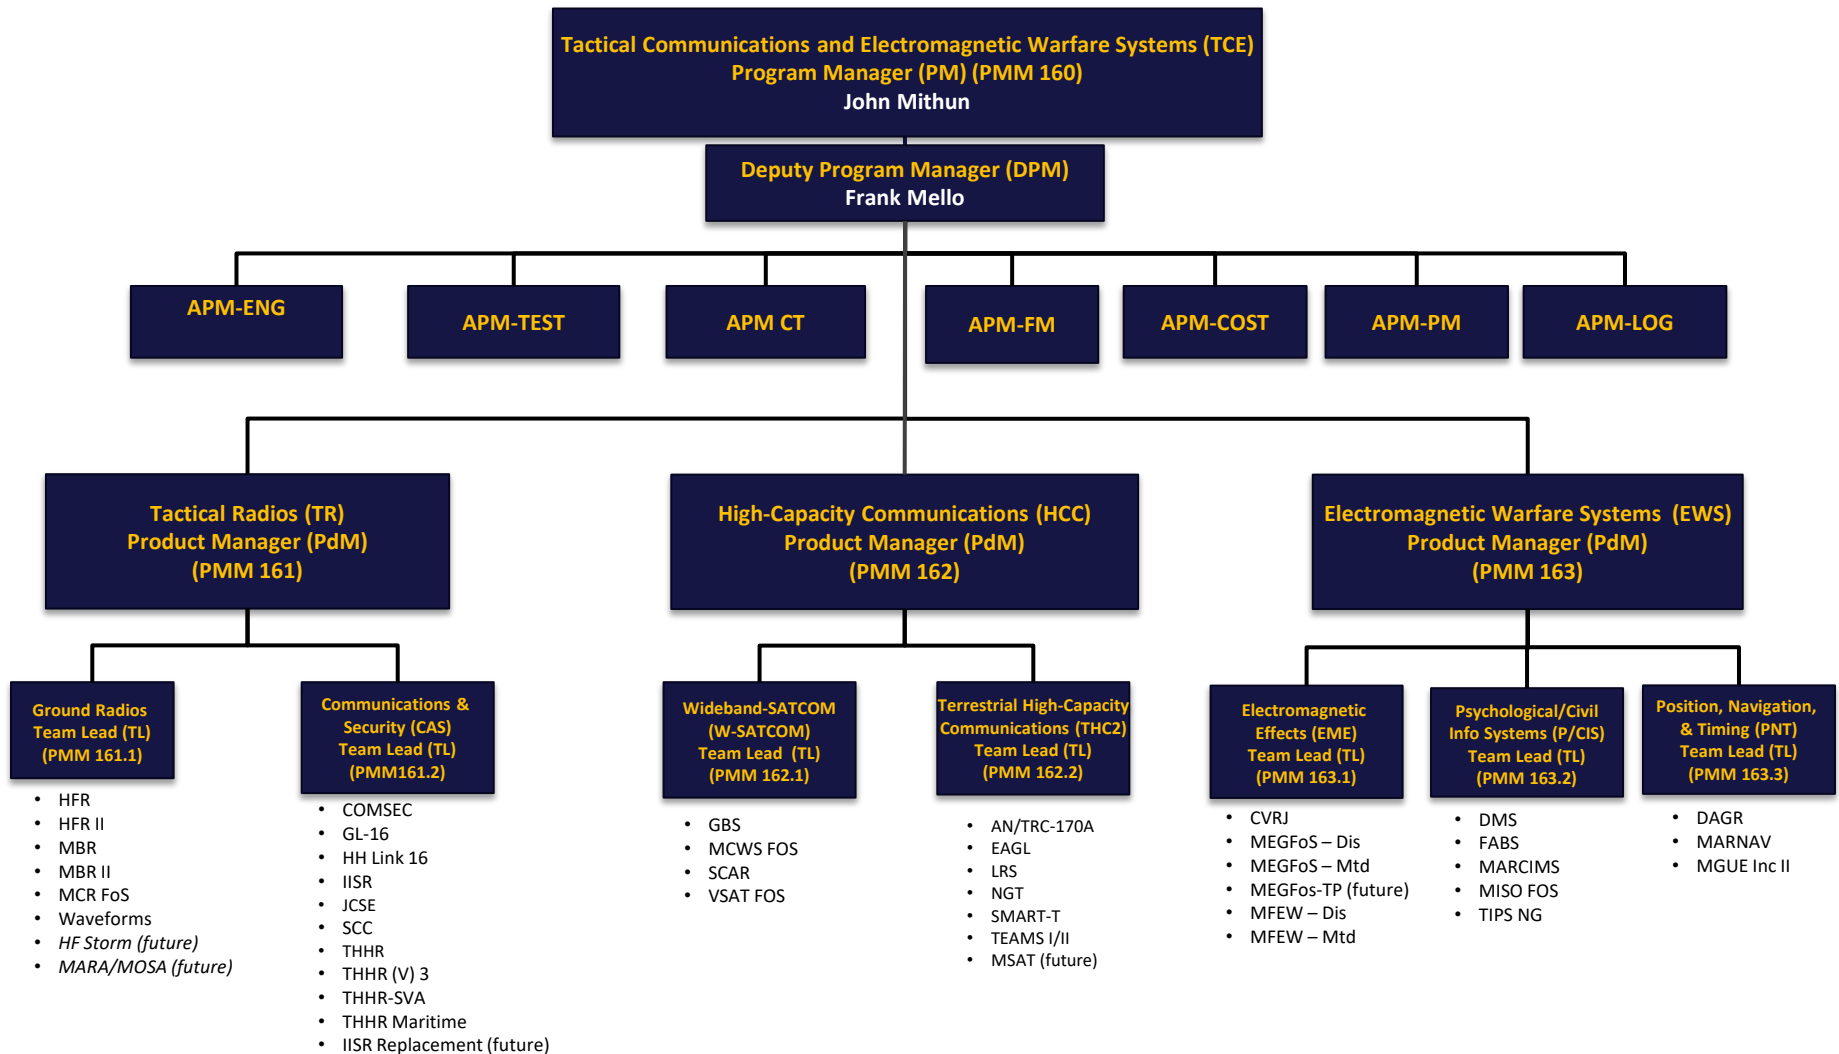

POC: Mr. Mathew Sergeant, matthew.r.sergeant.civ@usmc.mil

MARINE CORPS SYSTEMS COMMAND

Equipping Our Marines

Who are we?

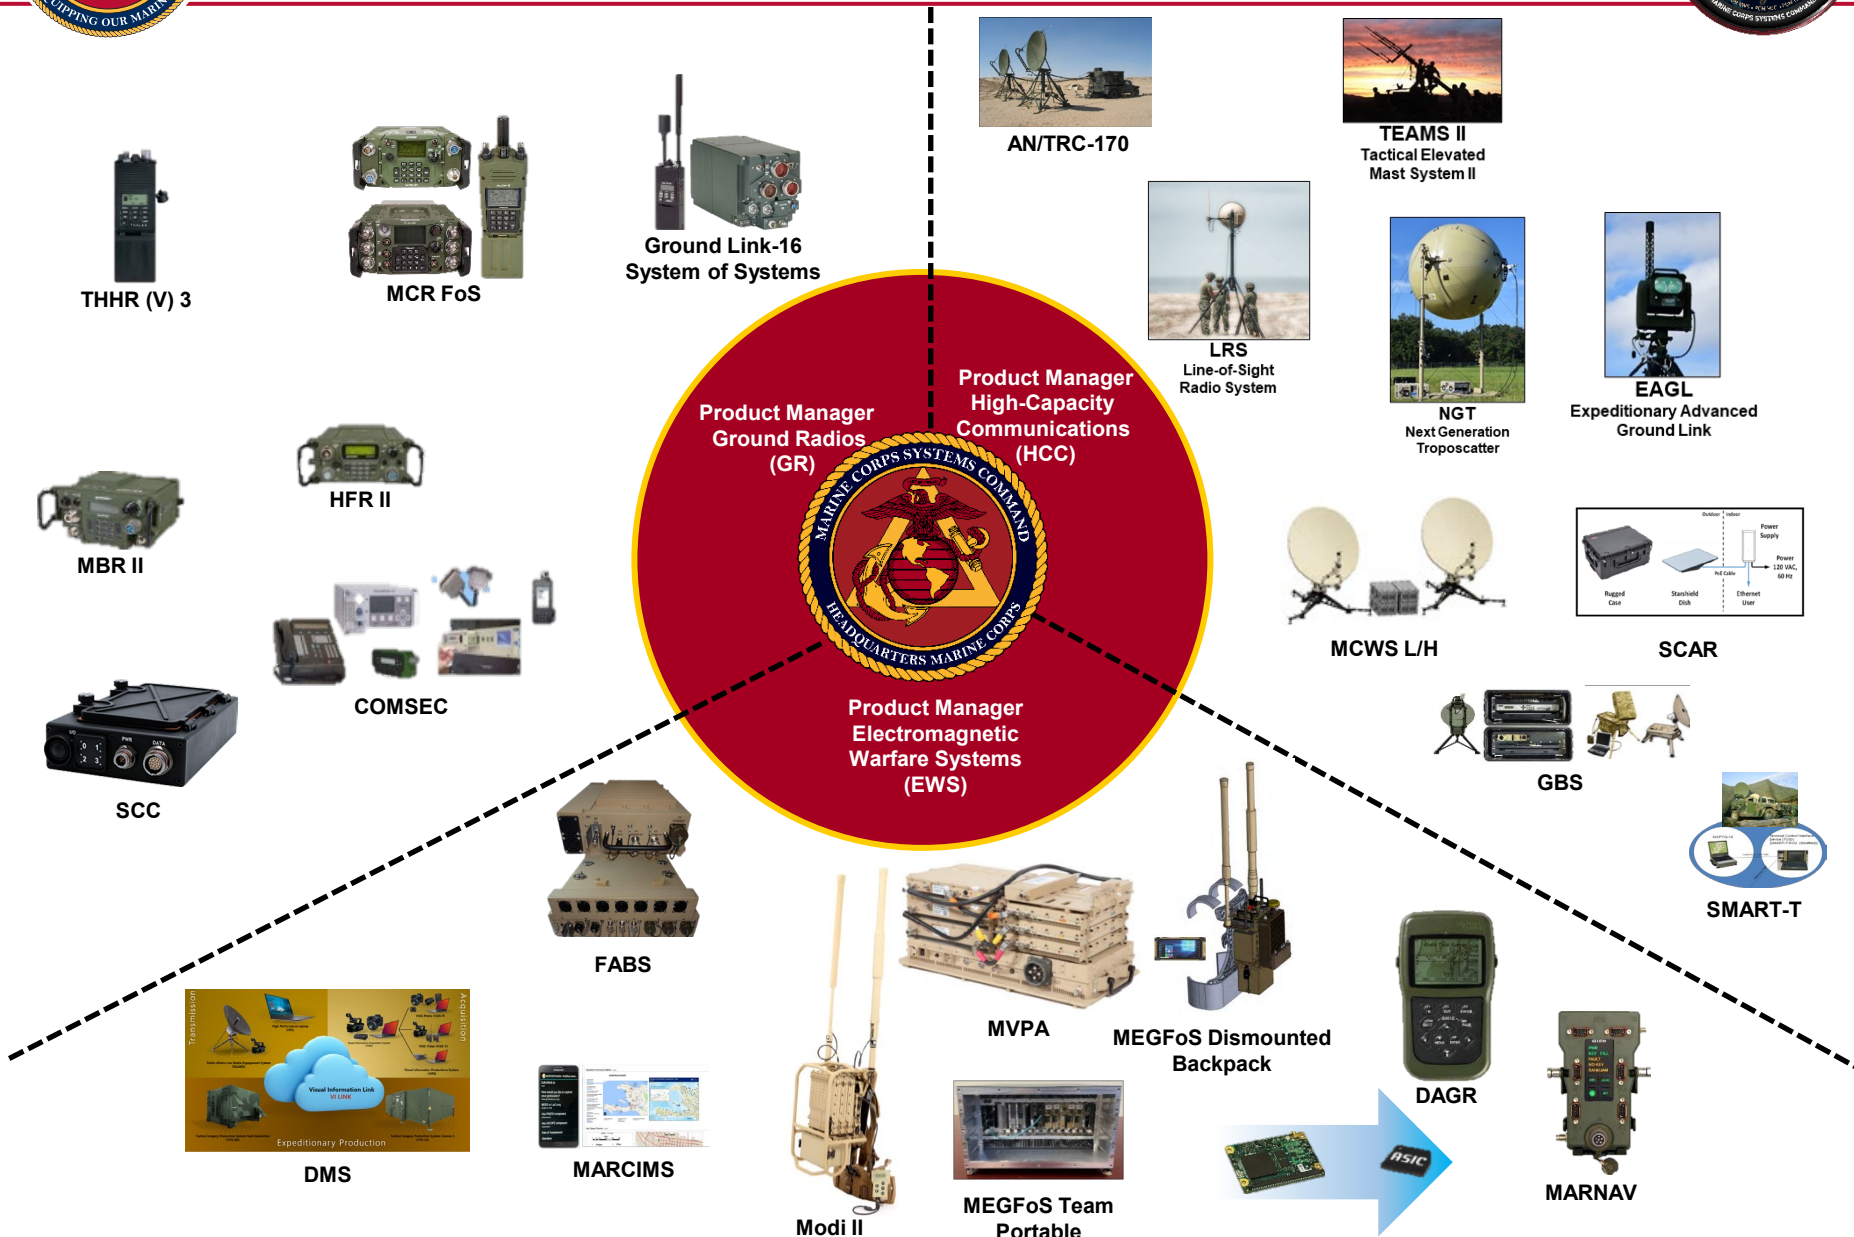

MARINE CORPS SYSTEMS COMMAND

Equipping Our Marines

Where are we today?

MARINE CORPS SYSTEMS COMMAND

Equipping Our Marines

Where are we going?

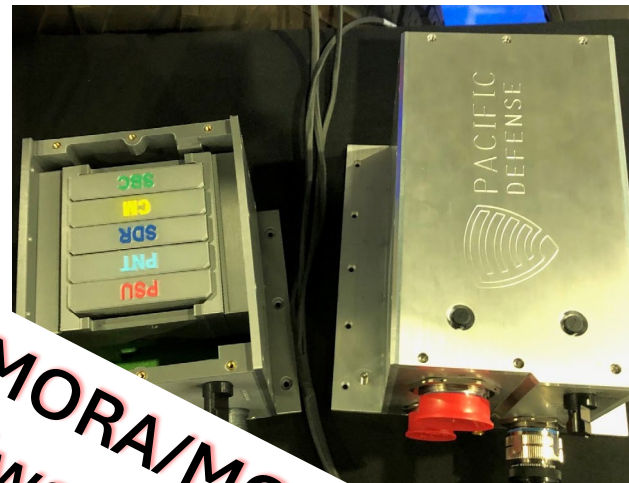

**CMOSS/SOSA compliance
is a must for end state**

EWOK Software

**MORA/MOSA
Hardware/Software**

- **Partnerships – Long term partners for the duration of the need**
- **GO FASTER!! – Operating within the constraints of the law, understanding risks, and where they are acceptable**
- **OTA – Opportunities for teaming and development**
- **MTA – Opportunities for developing bleeding edge technology**
- **Procurement for Experimental Phase**
 - Gets capability out, but the risks should be known
- **Collaborations with Industry and Collegiate partners – The needs will not be met if you don't know what I do**
- **Plug and play events – You have something that meets my need, lets test it and see**

Best Possible Product

Acquisition Speed

- Delivering at the speed of Need

Longevity

- DoD determines the hardware solution and interface controls

Pacing the Threat

- Real time need for capability to pace the threat and mitigate it in real time

Relevance

Goal

- Long term leasing agreement between us and the vendor?

Integration

- Of capability and on platforms
- Capability in the box

Modularity

- Battlefield Commander can Configure based on NEED

Partnerships with multiple vendors

- Long term agreements with capability providers to continue to deliver capability at the speed of need

MARINE CORPS SYSTEMS COMMAND

Equipping Our Marines

What do we need?

An Industry Partner who can integrate the capabilities and ensure the product continues be non-proprietary regarding both the hardware and the software.
