MARINE CORPS SYSTEMS COMMAND PROGRAM MANAGER INFANTRY COMBAT EQUIPMENT

BAYONET, MULTI-PURPOSE, WITH SCABBARD AND LEG STRAP

Overview: The Multi-Purpose Bayonet is to be used as a weapon-fixed bayonet for the M-16 rifle and M-4 Carbine or as a hand-to-hand fighting knife.

Features: The bayonet measures 13 ¼ inches overall and features an eight-inch blade and full tang construction. The clip point blade, made from 0.20-inch-thick 1095 steel, is 1 ¾ inch deep and has a sharpened false edge. Aggressive serrations are honed into the blade nearest the cross-guard to assist in cutting. The bayonet's handle is made from flexible thermoplastic elastomer, with an ergonomically designed texture for better handling. An indexing point molded into the handle is embossed with the Marine Corps Eagle, Globe, and Anchor.

Components: Bayonet, scabbard, and leg strap
