EXTREME COLD WEATHER MITTEN SYSTEM

Overview: The Extreme Cold Weather (ECW) Mitten System is comprised of a mitten shell with a removable mitten liner and a flame resistant light duty glove insert to provide improved environmental protection.

Features: The mitten shell is constructed from coyote colored nylon and has a water repellent leather palm. The mitten shell is insulated with an elastic wristband and a long gauntlet that extends up the forearm and is tightened to the arm with an adjustable cord and barrel lock. The mitten liner is water repellent and attaches to the inside of the shell by hook and loop tabs and has a no slip grip. The light duty glove insert is flame resistant and made from a water repellent treated knitted Nomex/Lycra blend with grip dots covering the finger and palm.

Components: Mitten shell and two liners (one mitten type, one glove type)

Approved Acquisition Objective (AAO):

UNIT	AAO
I MEF	11,550
II MEF	12,650
III MEF	7,300
MARFORRES	3,500
MARFORCENT	0
MARFORSOC	0
WRMR	0
DMFA	0
SPT EST	1,930
TOTAL	34,465

Concept of Distribution: One set per Marine

Fielding Status: Fielding completed

Requirements Document: Mountain Cold Weather Clothing Program (MCWCP) Initial Capabilities Document (ICD) dated 3 Aug 2010, MCWCP ICD, dated 27 Sep 2010 and Capabilities Development Document (CDD) Approved Acquisition Objective (AAO) Change Letter, dated 8 Aug 2015

Training: None
