Contact Information: PM_ICE@usmc.mil

Overview: The Lightweight Exposure Suit (LES) provides lightweight, low-volume, rain protection in a mountainous environment.

Features: The LES jacket and trousers are durable, lightweight over-garments, designed to be quickly donned and doffed. The garments are constructed out of fabric that provide rain protection and are water vapor permeable to minimize overheating when engaged in strenuous activities. Garments are constructed with abrasion-resistant knees, seat reinforcement patches and waterproof stitching.

Components: Jacket and trousers

Approved Acquisition Objective (AAO):

UNIT	AAO
I MEF	23,100
II MEF	25,300
III MEF	14,600
MARFORRES	7,000
MARFORCENT	0
MARFORSOC	0
WRMR	0
DMFA	0
SPT EST	0
TOTAL	70,000
