MARINE CORPS SYSTEMS COMMAND PROGRAM MANAGER INFANTRY COMBAT EQUIPMENT

MARINE CORPS MODULAR SNOWSHOE

Overview: The Marine Corps Modular Snowshoe (MCMS) is a lightweight modular snowshoe to be used during training and operations to provide traction and floatation in steep terrains and diverse snow conditions, ensuring mobility for Marines engaged in forward deployed cold-weather missions. The snowshoe is supplied with a detachable eight-inch tail.

Features: The MCMS is designed to accommodate four-inch or eight-inch tails, the modular tail extensions can be removed for compact storage, the tail extension can be attached or removed while wearing gloves, the tails extend across the entire width of the snowshoe platform to provide maximum strength and stability, the tails color is light gray, matching the color of the snowshoe, quantity per assembly-two snowshoe tails.

Components: N/A

Approved Acquisition Objective (AAO):

UNIT	AAO
I MEF	5,743
II MEF	5,941
III MEF	3,168
MARFORRES	4,455
MARFORCENT	0
MARFORSOC	0
WRMR	1300
DMFA	0
SPT EST	495
TOTAL	21,102

Concept of Distribution: One per Marine and Sailor in a Ground Combat Element.

Fielding Status: Fielding complete

Requirements Document: Statement of Need (SON), dated 29 Jun 2009
