

GREENS MAINTENANCE TEST KIT (MTK)

TAMCN: H00202G

I.D: 12589A

NSN: 5805-01-647-7469

Functional Description

The Maintenance Test Kit (MTK) is an intermediate maintenance activity kit that consists of cable assemblies used to make input and output connections to the GREENS. When these cable assemblies are used in conjunction with general purpose test equipment and power supplies, the technician is capable of simulating all input and output voltage ranges and functionality of the controller. The MTK allows the technician to perform diagnostic checks and services and software upgrades.

Technical Description

Information

Manufacturer: UEC Electronics
Model: 0754A22-001

Dimensions

Length (in): 22.1
Width (in): 17.9
Height (in): 10.4
Weight (lbs): 45.0
Square (ft²)/Cube (ft³): 2.8/2.4

Transportability: Hand carry.
